DETAILED ACTION

1. In view of applicants' argument, the rejection of claims 1-20, 28-34, 37 under 35 U.S.C. 102(e) as being anticipated by Adedeji et al. (US 2002/0137840 A1) is withdrawn. Further, the rejection of claims 24-27 under 35 U.S.C. 103(c) as being unpatentable over Adedeji et al. (US 2002/0137840 A1) in view of Adedeji et al. (US 2002/0128368 A1) is withdrawn. The rejection of claims 21-23, 35, 36 under 35 U.S.C. 103(a) as being unpatentable over Adedeji et al. (US 2002/0137840 A1) in view of Adedeji et al. (US 2002/0165317 A1) is withdrawn.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application

Art Unit: 1713

by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-20, 28-34, 37 are rejected under 35 U.S.C. 102(e) as being anticipated by Adedeji et al. (US 2002/0137840 A1).

The invention of claims 1-20, 28-34, 37 relates to an **under hood component** comprising a **poly(arylene ether)/polyolefin blend**, a **reinforced poly(arylene ether)/polyolefin blend** or a **combination of the foregoing**.

Adedeji et al. (abstract, page 10-12, claims 1-36) disclose a blend composition that is substantially identical to the under hood component composition being claimed. Since Adedeji et al. (page 7, paragraph 82) disclose that the composition are suitable for under hood component application, it would not be difficult for one of ordinary skill in art to obtain the invention of claims 1-20, 28-34, 37 after reading the disclosure of Adedeji et al. The invention of claims 1-20, 28-34, 37 is anticipated.

Allowable Subject Matter

4. Claims 21-27, 35, 36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
